

## Secure document workflows for accountants

Share sensitive and large files, get e-signatures and streamline work on any device, any time.

Say hello to a more productive way to work with your clients.

### Secure file sharing without restrictions

Easily streamline document workflows and share large and sensitive files without the headaches.

### Business-class security

Keep client information safe with bank-level data encryption.

### One customized portal for managing files

Make it easy for your team and clients to securely upload, download, and share files using a single custom-branded portal.

### Simple e-signatures

Streamline document signing and cut down the sales process by up to 93% with legally binding e-signatures.

### ShareFile Plugin for Microsoft Outlook

Easily encrypt emails and automatically convert attachments to secure ShareFile links.

### Easy-to-use interface and 24/7 technical support

Learn to use ShareFile in minutes. If you or your team members need help, get support around the clock from real people.
