Why Citrix ShareFile?

Secure. Professional. Easy to use.
And the best customer service in the industry.

You have a lot of options when it comes to cloud file storage and sharing solutions — but not all options are created equally. Citrix ShareFile is the only solution specifically designed for businesses of all sizes. It's simple for you and your clients, while providing the security, admin controls and customization you need to keep your data safe. It's accessible anytime, from any device, and should you or your clients ever need us, we're here to help 24/7 by phone or email.

"ShareFile is a 'no-brainer' for us. It has streamlined operations throughout the whole company, saving not only time, but money as well."
