

ShareFile for architecture and engineering firms

The simple way to keep projects moving on any device, anytime.

Secure file sharing without the email restrictions

Share and access all your files and content in a few simple clicks. No more cumbersome FTP, CDs or thumb drives required.

Business-class security and reliability

Keep client and business information safe with bank-level data encryption and more than 25 customizable security settings.

Secure remote access to apps and desktops

Access office PCs, servers and apps from any device, any time—all without the extra trip to the office.

Documents signed in minutes

Streamline document signing and cut down the sales process by up to 93% with legally binding e-signatures.

Powerful collaboration capability

Save up to 10 hours a week with streamlined workflows that boost productivity and help teams collaborate better—even when they're miles apart.

Easy-to-use interface and 24/7 technical support

Learn to use ShareFile in minutes. If you or your team members need help, get support from real people.
