

5 SHAREFILE

INTEGRATIONS AND PARTNERSHIPS FOR ARCHITECTS AND ENGINEERS

Citrix ShareFile partners with many technology companies to customize solutions for every business need. Here are **five great integrations** that help our architecture and engineering clients by extending ShareFile functionality and making your projects move faster.

WHAT IT DOES

Connects project members to each other for true real-time collaboration and project success — from anywhere via any device.

WITH SHAREFILE, IT...

Combines its project management system with easy and secure file transfer and storage to reduce waste and maximize efficiency from design to closeout.

WHAT IT DOES

Streamlines construction bidding for general contractors and subcontractors and gives general contractors unparalleled control over their projects.

WITH SHAREFILE, IT...

Provides access to files directly from customer planrooms for quick viewing, uploading, downloading and versioning for an integrated user experience that dramatically improves how general contractors and subcontractors communicate.

WHAT IT DOES

Allows Fujitsu ScanSnap Desktop and Mobile series scanner users to quickly save scanned documents directly to ShareFile, without having to save a copy of the document to the local computer.

WITH SHAREFILE, IT...

Provides the most streamlined and secure workflow available for digitizing, storing and sharing documents and reducing paperwork.

SHAREFILE PLUGIN FOR
MICROSOFT OUTLOOK

WHAT IT DOES

Lets users send large project files directly with an email link via Microsoft Outlook.

WITH SHAREFILE, IT ALSO...

Features encrypted email to let users protect the body of an email to communicate securely with clients and coworkers, who can respond with an encrypted email even if they aren't ShareFile customers.

WHAT IT DOES

Allows documents to be sent and get signed online with legally binding electronic signatures.

WITH SHAREFILE, IT...

Provides a way for clients to sign any document completely and send it directly back to your ShareFile account instantly.
